Roots

My roots represent that I am smart working, Adamant & Courageous. I have developed these qualities during my schooling year as a team captain of badminton.

Grass

One side of the grass is represented by an athlete, which is a source for me to stay calm and reduce my stress. It is more than a hobby for me as it has generated a lot of skills in me like leadership, directing skills etc.

The second side of the grass is represented by an workohilic person, which always want to work on something staying ideal makes me mad.

Trunk

I was an adventurous boy who embarked on his schooling journey with a heart full of curiosity. I got proved dependable in group projects, always stepping up to lead and inspire my classmates. Energetic and enthusiastic, I participated in various sports and extracurricular activities, making me popular among my peers. Independent in my studies, I explored beyond textbooks, delving into the world of knowledge. My meticulous nature was reflected in every assignment that I submit, earning my praise from teachers. Despite of my brilliance, I remained humble, spreading joy with my stories and benevolent acts, making the school a better place for everyone, leaving a legacy of kindness and inspiration.
